

GLOBAL PRESENCE + UV RESISTANCE

LEADING GARDEN TOOLS BRAND

OSCILLATING SPRINKLERS

AVIENT SOLUTION

OnFlex™ S KE Thermoplastic Elastomer

WHY AVIENT?

- Developed a customized TPE material with superior UV resistance, adhesion to ABS, and demolding
- Leveraged in-house UV chamber tests to exceed UV parameter requirements
- Worked closely with customer's product development, engineering and quality teams to test and specify material
- Supplied grade globally with local technical and manufacturing support

LEARN MORE

KEY REQUIREMENTS

- Superior abrasion resistance performance
- Ability to pass standard UV testing as well as the customer's more stringent UV criteria
- Global support and material availability
